## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, drawn to a plasma display panel with dielectric layer, classified in class 313, subclass 586.
- II. Claims 21-27, drawn to the process of manufacturing a display panel, classified in class 445, subclass 24.

Inventions of Group I and Group II are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made by another material different process. For example, the product as claimed can be made as follows:

- (a) forming a preformed dielectric layer comprising a flake-form filler mixture
- (b) adhesion of the preformed dielectric layer to the substrate by heating

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

An attempt to contact James Hasley by phone was made on 11/04/02 and 11/12/02 to request an oral election to the above restriction requirement. Mr. Hasley was not available and therefore the telephone calls did not result in an election being made. Applicant is advised that

the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
